polyrey

We create for you.

Washroom Collection

For over 58 years, Polyrey has been the market leader in the manufacturing and supply of High Pressure Laminate and Compact Grade Laminate, available in sheet sizes specifically suited for washrooms and related applications: schools, hospitals, airports, swimming pools, offices and retail.

All 50 decors are available in High Pressure Laminate and Compact Grade Laminate of which 32 decors are available in Melamine Faced Board offering the cubicle manufacturer greater flexibility regardless of project size.

With the added convenience of the whole product range being available for immediate delivery from our distribution network.

All Polyrey's HPL and Compact products are Sanitized® as standard.

1

Washroom Decorative Solutions

Colours

Natural or intense, cool or warm, our palette of plain colours lends itself to any washroom application.

Specifically created for the cubicle environment our patterns provide a unique colour palette incorporating fresh and vibrant designs.

Patterns

Woods

Nordic or exotic, raw or sophisticated, wood finishes reveal the true character of furniture or a space and bring a sense of well-being and serenity.

At the forefront of innovation, digital print is an optimal solution to differentiate or personalise a space, or match the colours of a brand.

THE ART OF

BEING UNIQUE

Signature
PERSONALISED DIGITAL LAMINATE

Signature

At the forefront of innovation, digital print is an optimal solution to differentiate and personalise a space, or match the colours of a brand.

PERSONALISED DIGITAL LAMINATE

Polyrey panels are resistant to everyday wear and tear: impact, scratches, stains, water, etc...

High resolution printing using special inks and paper for a product that complies with EN 438 standard.

Enhance your design with a wide choice of finishes to maximise the visual effect or add a texture dimension to the panel.

Bespoke print design for endless possibilities for your cubicle project.

Washroom Technical Solutions

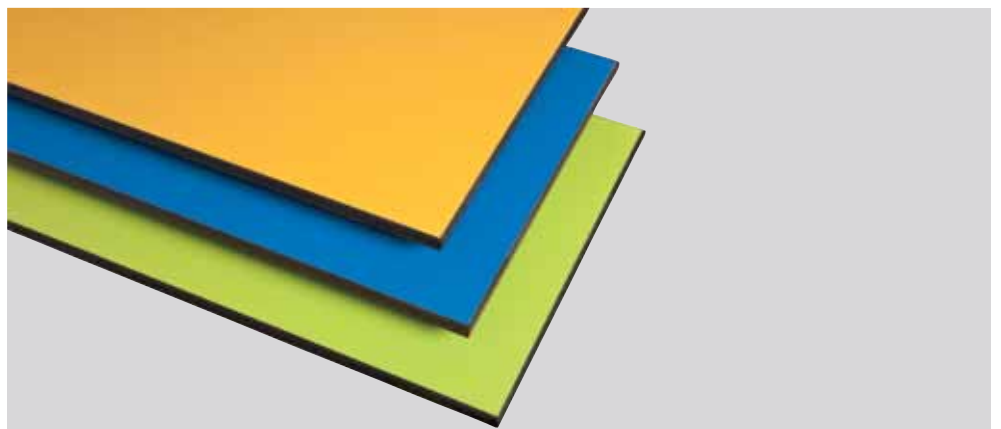

Polyrey HPL[®]

High Pressure Laminate

Polyrey HPL is a versatile product offering outstanding durability with superior resistance against impact, abrasion and general surface wear. Its surface is impervious to water and maintains its integrity even in the most heavy duty applications. It is composed of layers of kraft paper impregnated with phenolic resin.

Polyrey HPL is readily available in larger sheet sizes specifically aimed at washroom and related applications offering the best optimisation and most cost-effective solutions.

Reysipur[®] Compact

Solid Grade Laminate

Compact Solid Grade Laminate is a dense self-supporting decorative panel with a black core offering the same surface advantages as those of HPL. This product is particularly suited for high humidity environments due to its inherent water resistance.

It is composed of layers of kraft paper impregnated with phenolic resin and two decorative faces on both sides.

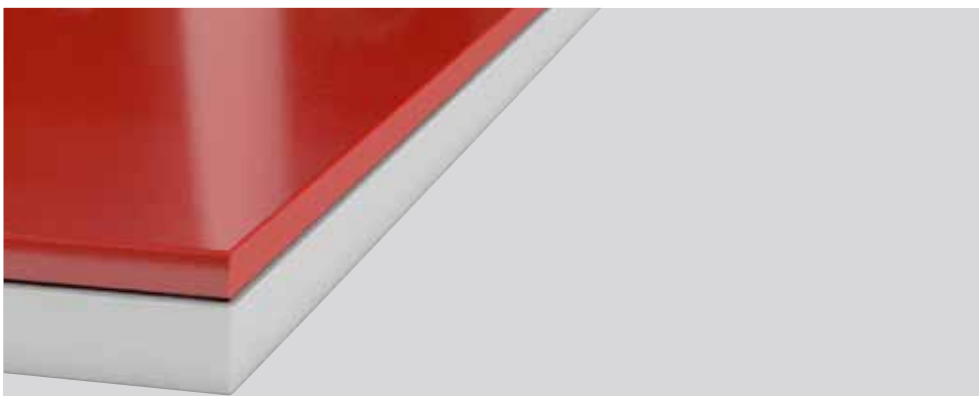

Panoprey[®] MR MFC

Melamine Faced Chipboard

Polyrey Melamine Faced Chipboard offers the most cost-effective solution for non-wet area applications.

It is a self-supporting, moisture resistant board with a chipboard core with two decorative faces, which are impregnated with melamine resin.

Glass Effect

Vanity Worktops

Polyrey glass effect ready made vanity worktops achieve a sleek and contemporary finish. The black, red, white and frosted glass colours have been carefully selected to coordinate with all colour schemes.

The four chosen decors are supplied as prefinished laminated panels available in 3070 x 600 x 18 mm.

A ready made board bonded with gloss HPL with a white balancer and pre-edged on one long side with Rehau's unique duo-colour edging. Additional edging strips are provided for the fitter to complete.

Polyrey HPL®

- 1/ Protective overlay for printed decors.
- 2/ Decorative paper impregnated with melamine resin.
- 3/ Layers of kraft paper impregnated with phenolic resin.

- Moisture resistant chipboard.
- Decorative on both sides.
- Food safe (IANESCO approved).

High Pressure Laminate

High Pressure Laminate is made of layers of kraft and decorative paper impregnated with thermosetting resins, which has excellent technical properties thanks to the combined action of heat (150°C) and high pressure (75kg/cm²). HPL is suitable for use in areas of high traffic, public environments and robust conditions.

The 50 chosen decors are also available in postforming grade 3070 x 1240 x 0.8 mm in plain colours and 3070 x 1320 x 0.8mm in woodgrains and patterns. They are suitable for bonding to a majority of substrates (wood, metal, mineral etc.). Our broad range of plain colours, woodgrain and patterns will enhance any type and size of project you have.

The FA texture will bring a soft touch and purity to the look of the laminate and a sensation of fine sand is created through the SURF texture available in 7 decors : C011, M001, M002, M003, N022, N023, N028.

Solid Grade Laminate

Polyrey's Reysipur® Compact products are thick High Pressure Laminate panels consisting of layers of kraft paper and two decorative sides impregnated with thermosetting resin.

Given their strengthened technical properties and the innovative Santized® antibacterial treatment, these boards are perfect for intensive usage (public places), areas of high humidity (washrooms) or hygienic environments (healthcare). They are ideal for horizontal (vanity tops) or vertical (wall panelling, cubicles) applications. Compact is classed as self-supporting from 8mm thick and machineable throughout its thickness. Its flexibility of installation allows great creative freedom.

The 50 chosen decors are available in 2600 x 2050 x 12.5 mm & 3660 x 1510 x 12.5 mm in FA finish (except for the M002 which is only available on 3660 x 1510 mm).

Melamine Faced Board

Panoprey Melamine Faced MR 19 mm Chipboard is available in a selection of 32 decors covering plain colours, patterns and woodgrains all in FA finish.

An economical double sided decorative self-supporting panel manufactured with melamine resin, suitable for use in dry or humid environments.

The most popular decors are available in Panoprey® to complement HPL and Reysipur® Compact availability to further maximise the flexibility in your choice of product.

Matching ABS edging is also available from our partner Rehau - please contact us for details.

Glass effect vanity worktops

Our new glass effect worktops effortlessly achieve a sleek finish. The black, red, white and frosted glass colours have been carefully selected to go with all colours schemes.

The four chosen decors are supplied as prefinished laminated panels available in 3070 x 600 x 18 mm.

Our glass effect vanity products consist of a surface layer made from high pressure laminate bonded to a moisture resistant substrate and finished using Rehau duo-colour edging strips.

Polyrey high resistance gloss finish (BRIHG) enhances the luminosity and depth of the decors. This surface finish has been especially developed for horizontal applications with increased scratch resistance.

B070 Blanc Megève with Rehau edging 1522E

N005 Noir with Rehau edging 1521E

R036 Rouge Cerise with Rehau edging 1638E

A014 Aigue Marine with Rehau edging 1640E

Antibacterial

HPL & Compact

Active Biocidal Substance
SILVER-ION

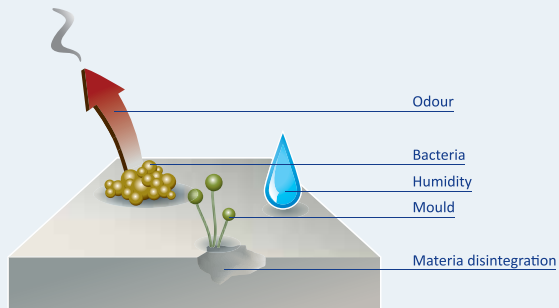

Polyrey continually innovates to bring you hygienic decorative solutions thanks to the antibacterial protection by Sanitized[®] silver ions. This initiative highlights our commitment to the continual improvement in health and safety, thus providing more than is required by law.

Polyrey benefits from the partnership with this well-known brand, whose effectiveness has been proved and demonstrated in the textile and plastic industries.

The certificate released by Sanitized AG is renewed every year following laboratory tests. Rigorous testing ensures constant quality, which is also verified by our laboratory.

Standard Board

Sanitized®-treated Polyrey Board

Integrated within the material in order to assure antibacterial protection throughout its lifecycle, this biocidal additive does not influence the technical and aesthetic performances of our HPL and Compact products.

It is a technological innovation that Polyrey has been able to implement thanks to an integrated manufacturing process, which includes the production of our own resins.

The silver ions encapsulated in glass balls are activated when entering into contact with humidity. They kill surface bacteria and block the cell division process, thus reducing bacteria proliferation.

The Ag⁺ ion-based Sanitized® treatment is a non-migratory inorganic solution that is not modified with time. Unlike synthetic and organic antimicrobial substances, such as triclosan, silver is a non-toxic molecule.

With Sanitized® antibacterial treatment, more than 99% bacteria are destroyed in just 24 hours.

Eco friendly

HPL, Compact & MFC

At the heart of its sustainable development approach, Polyrey is implementing an active policy aimed at reducing the impact of its activities on the environment throughout all stages of the manufacturing process and life-cycle of its products: energy saving, waste reduction, preservation of natural resources, air protection and product durability.

Polyrey has conducted a life-cycle analysis (LCA) in order to assess the impact on energy, water, waste and greenhouse gas emissions throughout the life cycle of each product.

The two Polyrey plants are ISO14001 certified underpinning our environmental practices.

Polyrey laminates used as decorative surfaces in interior fitting and furniture, doors, partitions, wall panelling and worktop applications, as a component, can help obtain LEED & BREEAM credits for construction certification.

High Pressure Laminate with FSC certification

Since 2010, Polyrey has in place an FSC Chain of Custody for its supply of kraft and decorative papers. The FSC Chain of Custody certification is awarded to companies that can track and document the certified material throughout the entire manufacturing process, from the forest to the consumer, including all subsequent stages of procurement, processing, manufacturing, distribution and sale of certified goods.

All Washroom Collection 2017 High Pressure Laminate decors are FSC controlled wood certified.

FSC mixed credit HPL is available by special request. This guarantees for our customers and consumers that the products they are purchasing have been made using wood sourced from sustainably managed forests and contribute to green building practices. Certified material is material from a certified company that complies with specific environmental, social or economic requirements.

The mark of
responsible forestry

High Pressure Laminate, Compact and Melamine-faced board with PEFC certification

Polyrey has been PEFC-certified by the FCBA, an independent sustainable and environmental management organisation, since 2003, with the establishment of a Chain of Custody. The PEFC Chain of Custody certification is awarded to companies that can track and document the certified material throughout the entire manufacturing process, from the forest to the consumer, including all subsequent stages of procurement, processing, manufacturing, distribution and sale of certified goods.

Today, all Polyrey HPL, Compact and Melamine-faced Panels are PEFC-certified*. This guarantees for our customers and consumers that the products they are purchasing have been made using wood sourced from sustainably managed forests and contribute to green building practices. Certified material is material from a certified company that complies with specific environmental, social or economic requirements.

* All our HPL and Compact laminates are at least 40 % PEFC-certified.

All our Panoprey products are at least 90 % PEFC-certified.
